VAUTO ACHIEVES TWO MAJOR MILESTONES

OAK BROOK, IL (August 27, 2010) – vAuto announces today the achievement of two company milestones. First, vAuto has surpassed the 3,000 dealer customer mark. Second, vAuto has been named on the 2010 Inc. 500 list as one of the nation's fastest-growing, privately held companies in America.

At the end of its recently completed second quarter in 2010, vAuto's unique dealership rooftop count totaled 3,093. These dealerships are successfully executing the Velocity Method of Management to maximize profits and grow their used vehicle operations and include many of the nation's largest dealer groups and single point locations.

Further, vAuto ranked 10th in the software category and 125th overall on the 2010 Inc. 500 list with a three-year sales growth of 2,044%. This is the second consecutive year vAuto's performance has been acknowledged on this prestigious list.

"We are proud to have achieved these important company milestones," says Keith Jezek, vAuto's President and CEO. "Surpassing the 3,000 customer mark is a tribute to our state-of-the-art inventory management solution. In addition, only 17% of participants received the distinction of being on the Inc. 500 list for both 2009 and 2010. I would like to congratulate the entire vAuto team on their passion and commitment to excellence. This is a very exciting time for our company."

“Fast growth at any time is a big achievement; fast growth during the past few years is just short of miraculous,” said Inc. editor Jane Berentson. “The Inc. 500 consists of these just-short-of miraculous companies, the ones that through ingenuity and ambition have increased revenue, hired employees, and grown fast in difficult economic times.”

The Inc. 500 list of the fastest-growing, privately held companies in the United States was introduced in 1982. The list provides a comprehensive look at the most important segment of the economy - America’s independent-minded entrepreneurs. The 2010 Inc. 500 offers a glimpse of the future of the U.S. economy. The health sector saw aggregate revenue of \$1.1 billion. More than 25 percent of companies in the energy sector focus on solar and other alternative sources. Fewer than a third of retailers have even a single brick-and-mortar store.
